BRIEF ABSTRACT OF LETTER.

Recommends that an allotment of Rs 25000/- may be sanctioned for the purpose mentioned above in the several Dts viz:

| | Rs | | Rs |
|---|---|---|---|
| Bangalore - | 1000 | Shimoga | 450 |

NOTES AND ORDERS.

The Revl Commr states that the comparatively large amounts required for the Tumkur, Mysore & Chitaldrug & Hassan Dts are due to the fact that many of the works started in those Dts on account of the distress of 1908-09

are reported to be incomplete.

A Sum of Rs 90,000 was sanctioned for the year 1908-09 for meeting advances to be given to the ryots for Executing their Share of earthwork in minor Tanks. As many of the works started during that year were incomplete at the ~~End~~ beginning of the next ffl year (1909-10), the Rev Comnr applied for an allotment of Rs 12,000 to be utilized during that year for completing the works begun already. But as however the Rev Comnr was allowed to utilize the unspent allotments of the year 1908-09, no fresh allotment was sanctioned for the 1st ffl year and the Rev Comnr was directed to distribute the unspent balance (wh amounted to about Rs 50,000/-) to the several Districts for the purpose (Gos. no R 4644-54: Agr 70-09-4 dd 7.1.10.)

From the Rev Comnr's letter under disposal it appears that many works are still incomplete in the Districts, Mysore, Hassan & Chitaldrug Dts.

It may be observed here that the Execution of Earthwork in unrestricted tank

should be done by the ryots and it is only in special cases of hardship that advances may be sanctioned to them for doing the work, they being recovered from the ryots in Easy annual instalments as arrears of Land revenue - vide Sub para 3 of para XII of G.O. no R 5251-61 - Agri 626-06-6 dt 15-12-06.

As a very large amount of money has been advanced for this purpose since the year 1908-09, it is a question whether the liability of the ryots can be further increased by sanctioning such a large amount as Rs 25,000/- for the current year

The interest of the ryots themselves requires that they should complete the earthwork where it has only been done partially. The work done is of no use while they have become liable for the cost. The reason why during a season of distress the cost is advanced to the ryots is that they are unable to take up

any work by which they cannot immediately earn something. This rule does not apply when the good harvests of years have brought the ryots back to a state of prosperity. It seems to be advisable to make the ryots do the remaining part of the earth work without further advance. A very small allotment of about 500 Rs may be made, to be utilized only in the case of such tanks or in which there are special difficulties for the ryots to complete the earthwork. The spirit of self-reliance among the ryots should not be weakened by too much assistance.

SIR,

Agy. P

With reference to para 2 of Government Order No.R.14-25/Agri.79-07-4 dated 1st July 1908, I have the honor to state that the Deputy Commissioners of all Districts except Kolar have applied, as noted in the margin, for a total allotment of Rs.21.180 for granting advances to ryots for executing their share of repairs to minor tanks under the minor Tanks Restoration Scheme. Many works started in the Tumkur, Mysore, Hassan and Chitaldrug Districts in connection with the ~~Districts~~ distress of 1908-09 are reported to be incomplete and the comparatively large allotments required by the Deputy Commissioners of these Districts are due to this fact. The Deputy Commissioner of Kolar District has not intimated the amount required for this District in spite of several reminders.

SIR,

D 3314 / 5

In continuation of this Office letter No. 6666 dated 20th December 1910, recommending sanction for an allotmentm of Rs. 25,000/- for granting advances to ryots for executing earth-work to minor tanks under the Minor Tanks ' Restoration Scheme, I have the honor to forward herewith copy of Comptroller's letter ~~xxxx~~ No. 2245/B.1414 dated 16th instant enquiring if any funds have been sanctioned for the purpose and to request that early orders of Government may be obtained in the matter.

2. From the details furnished in the Comptroller's letter it would appear that the amount required for incomplete works alone is Rs. 45,760/-, the amount required for such works in the Kolar District ( which was not intimated ~~x~~ to this Office by the Deputy Commissioner ) being Rs. 22,837/- The amounts applied for by the Deputy Commissioners of Bangalore and Tumkur appear also to be somewhat underestimated. I would therefore now recommend that an allotment of ~~xxxxxx~~ Rs. 50,000/- may be sanctioned for the current year.

I have the honor to be ,
Sir,

1. The Rev. Comm. states that many works started in the Tinnelvelly, Mysore, Hapsan and Chitaldrug Dts in connection with the distress of 1908-09 are reported to be still incomplete and that the Dy Comms of those Dts therefore require large allotments in order to be able to get the works completed. Govt observe that it is ordinarily inexpedient to make these advances as it is to the interests of the ryots to complete the earthwork where it has only been done partially & for the cost of which they have already become liable, and and that the work done will be of no use unless it is completed

GENERAL AND REVENUE SECRETARIAT.

It is undesirable to encourage the ryots to look to Govt help unnecessarily ~~in such matters~~ after agricultural conditions have become favorable and the local authorities should therefore endeavour to get all the incomplete works completed at a very early date without granting further advances on any large scale and weakening the spirit of self-reliance among the ryots.

An allotment of Rs 5000/- for all the Dts seems to be sufficient. This amount will be placed at the disposal of the Rev Commr and it shd be utilized only in the case of those tanks in which there are difficulties of a special nature in the way of the ryots completing the earthwork unaided.
